The Rular offers comparable performance to T8 products. Using the latest in LED technology coupled with high performance light diffusion materials to eliminate the LED spots that you can get on other products. The smart design means that they can be used in a variety of locations, from offices and corridors to garages and utility rooms. These have significant energy savings when compared to fluorescent products, saving money with no sacrifices in light output. Available in a variety of lengths, lumen outputs and emergency versions.

Opal pc & gloss white
